

# HOW YOU THINK THE FOOD SYSTEM LOOKS

# HOW THE FOOD SYSTEM ACTUALLY LOOKS

## RESOURCE SHARING

Mentorship (knowledge), tool shares (assets) and youth initiatives (intergenerational wisdom)

## FARM

Black and brown farmers are supported with the resources and land to grow culturally relevant food with environmentally sustainable practices

## FOOD HUB

Community-driven food hub that aggregates, markets, and distributes locally and regionally grown food through just and equitable practices

## RETAIL

Distributed equitably to grocery stores, restaurants, schools and available at an affordable price

## CONSUMER

Celebration of and community around food

Consumers and workers inform every stage of the process
